A Specialty. SHIRTS MADE TO ORDER and a Fit Guaranteed.

## "German Syrup"

Here is something from Mr. Frank A. Hale, proprietor of the De Witt House, Lewiston, and the Tontine Hotel, Brunswick, Me. Hotel men meet the world as it comes and goes, and are not slow in sizing people and things up for what they are worth. He says that he has lost a father and several brothers and sisters from Pulmonary Consumption, and is himself frequently troubled with colds, and he Hereditary often coughs enough to make him sick at Consumption his stomach. When- ever he has taken a cold of this kind he uses Boschee's German Syrup, and it cures him every time. Here is a man who knows the full danger of lung troubles, and would therefore be most particular as to the medicine he used. What is his opinion? Listen! "I use nothing but Boschee's German Syrup, and have advised, I presume, more than a hundred different persons to take it. They agree with me that it is the best cough syrup in the market."

## When to See an Oculist.

Should any of the following symptoms be experienced, an oculist of repute should be consulted: Spots or sparks of light floating before the eyes; quivering of the lids or sensation of sand in the eye; perceptible fatigue or the requirement of strong light in reading; the holding of objects at arm's length or close to the eye; squinting one eye or seeing objects double; dimness or dark- ing spots in the eyeballs or rays; the feeling of perceiving a colored circle around the lamp; sensitiveness of the eyeballs or contraction of the visual field; blurring of the vision or being un- able to see objects distinctly at a dis- tance; watering or redness of the eyes or lids; running together of the letters when reading; or seeing the vertical bet- ter than the horizontal lines.—Exchange.

## The First Born.

Young Father—I am amazed, shocked, my dear, to hear you say you intend to give the baby some pargoric. Don't you know pargoric is opium, and opium stunts the growth, enfeebles the constitution, weakens the brain, destroys the nerves, and produces rickets, marasmus, consumption, insanity and death? Young Mother—Horror! I never heard a word about that. I won't give the little ducky a drop, no, in- deedly. But something must be done to stop his yelling. You can carry him awhile. Father (after an hour's steady stamp- ing with the qualling infant)—Where in thunder is that pargoric?—New York Weekly.

## The Duty of Every Teacher.

A teacher of science ought also to be an investigator, were it only for the inspiration that his example might give to the pupils in his charge. To impart knowledge is a good thing, but to reveal the sources of knowledge is better; and in that revelation is found the educa- tional value of research regarded as a part of the teacher's essential duty.— F. W. Clarke in Popular Science Monthly.

## Paint Instead of Clothing.

The anjuta plant has seeds coated with a red, waxy pulp, which is dried and made into cakes. It is much em- ployed by the South American Caribs for painting their bodies; paint being almost their only article of clothing. As a commercial article it is mainly uti- lized as a coloring for cheese, butter and inferior chocolates.—Washington Star.

## Way Off.

Dullpate (who prides himself on his abstracted air)—Did you ever notice what a faraway look I have sometimes? Miss Spirituelle—Yes. Is that because you are a little off?—Good News.

## Children Cry for Pitcher's Castoria.

## SENATOR STEWART'S SPEECH.

Senator Stewart, who was invited by the Directors of the State Agricultural Society to go so, delivered the annual address of the Society at the Pavilion last night. A comprehensive synopsis of his speech is published in the JOURNAL this morning. He discussed subjects of paramount interest to the State, in fact those on which its very existence depends. That our resources are greater than we are generally credited with there is no doubt. As population increases in the older States and home seekers cannot find land elsewhere, more attention will be directed to the arid region, which has a climate unsurpassed in salubrity, and which only requires moisture and cultivation to make as productive as any in the temperate zone.

At present one of our most pressing needs is a population that will consume our agricultural products and produce something that can be profitably exported to pay for such products. As capital will not invest in manufacturing enterprises we have to rely almost exclusively on the development of the mineral resources of the State to attract such a population, and save the State from bankruptcy. Anything, therefore, that encourages the development of our resources should meet the approval of every Nevadan. It is conceded by every intelligent person in the State that nothing will so materially assist in attaining this result as the free coinage of silver.

Senator Stewart says the motto of our State is "The free and unlimited coinage of silver, equally with gold." To prove that this motto means more than idle words, let us sink personal animosities and partisan prejudices and work unitedly for the welfare of the State. If the exigencies of the case require it, and the next session of Congress will determine that question, let the independent electors of Nevada rise above partisanship for the good of the commonwealth, and nominate three responsible citizens for Presidential electors, who will pledge themselves to vote for the candidate and party that will promise to right the wrong of 1873, by opening the mints for the free coinage of silver as well as gold. No real friend of silver will object to a movement of that character, and it will show the goldites that the people of Nevada are capable of rising above partisanship, when the prosperity of the State is involved, and that they will no longer be duped and hoodwinked by place-hunting politicians.

## GOLD BUG FALLACIES.

The Nebraska Republican Convention was dominated by Senator Paddock, a tool of the goldites and henchman of Harrison, who permits him to dispose of the Federal patronage in his State. The result is a platform, the financial plank of which was doubtless framed in Wall Street. This plank declares that the free and unlimited coinage of silver would tend to the hoarding of gold and force the use of the money in payment of wages in every workshop, mill, factory, store and farm, and tend to the scaling down of wages of toilers, already depressed.

The fallacy of this argument is so apparent that it scarcely deserves comment. The silver dollar of the United States contains 412½ grains of silver 900 fine, or in other words 371¼ grains of pure silver and ten per cent. alloy. Free coinage will not reduce the weight of the dollar, nor in any way change the quantity of silver which it contains. It will, however, restore silver from a commodity, like lead and iron, as it now is, with no fixed value, to the place which it occupied as a precious metal from the most remote ages until it was surreptitiously demonetized to benefit money lenders. It has never been proposed by the advocates of free coinage to reduce the quantity of silver in the standard dollar or any other coin, consequently a dollar stamped in the mint with coinage free will be as good as a dollar coined at the present time from silver purchased by the Government. Free coinage, in fact, will give the dollar a standing in commercial circles which it does not now possess, because it will give the silver which it contains a fixed value, which cannot be changed by the gold brokers of New York and London.

Nebraska Republicans emphasize the assertion of Henry Cabot Lodge, Chairman of the Massachusetts Republican Convention and author of the Force bill, that "the Republican party is a bulwark against the free coinage of silver."

## A BOSS IN EXILE.

Boss Buckley, the blind man, who has been accused of running the city government of San Francisco for years, and accumulated a large fortune in the business, has fled to British Columbia. The Examiner declared war against him and prosecuted it with vigor. It charged him with polluting politics and using the Democratic party for selfish and corrupt purposes. The result was the reorganization of the Democracy in the city and the dethronement of Buckley. Its persistent onslaughts completely demoralized him and his forces. Many of his henchmen were Republicans who were rewarded for their services with sin or office. Now the grand jury, jeting on the suggestions of the Exam-

iner, desires to examine Mr. Buckley with a view of ascertaining what he knows about various crooked transactions, in which the taxpayers were heavy losers, but there is not the remotest probability of gratifying their desires. Buckley was accused of selling out to the Republicans at the election last November, and as the officers are under obligations to the gentleman and are not anxious to have their schemes made known to the public, he has been spirited from the city, and according to report is in British Columbia, on his way to Montreal to join the "American Colony."

What Buckley knows about the means used to elect the present municipal officers in San Francisco would make interesting reading and might implicate many Republicans now holding official positions, therefore, he was forewarned, probably by the very men who are now pretending to be searching the city for him. Buckley knows too much about the last election in California to be permitted to appear and testify before the grand jury.

## American Tourist Arrested.

Special to the Journal.  
London, September 25.—The American tourist, Mr. Graves, who was recently arrested in Germany for taking photographs of scenery, has arrived in London. He says he was arrested at Mayence while taking a harmless view of the town from the fort works, and was confined for thirty-three hours in a cell furnished with only a dirty mattress. His food consisted of black bread, a mug of coffee wash drawn from a tank and rotten soup, also taken from a tank, until he was allowed to buy his meals. He was released through the American Consul and then went to Metz, where he was again arrested for taking photographs in the streets. From Metz he was hunted over the French frontier.

Grand Lodge of Odd Fellows  
Special to the Journal.  
St. Louis, September 25.—The Sovereign Grand Lodge of Odd Fellows this morning voted down the proposition that members could become eligible to the degree of Patriarch Militant without going through the Encampment.

A resolution was presented to remove the headquarters of the Grand Secretary from Columbus, Ohio, to Baltimore, Maryland, and was referred to a committee. Efforts to have another convention of the Rebekah Degree next year was overwhelmingly defeated.

## Murderers Captured.

Special to the Journal.  
San Francisco, September 25.—A Chronicle's Sacramento special says it is reported that the men who murdered Mrs. Greenfield at Napa some months ago and dangerously wounded Captain Greenfield have been captured in Oregon or Washington. Police Captain Lee when asked concerning the rumor said that the Sheriff of Napa county told him that the men had been captured, but who they are or where captured Lee would not state.

## Trial of Breedlove.

Special to the Journal.  
San Diego, September 25.—The trial of C. W. Breedlove, who clubbed to death Sailor Brown of the U. S. Cruiser Charleston in this city on July 14th, began to-day. The jury has been selected. The district attorney's opening statement was made and the taking of testimony began. Joe Brown's mother was in attendance. There is great public interest in the case.

## Record Broke.

Special to the Journal.  
Independence, Iowa, September 25.—Allerton started to beat the stallion record to a wagon of 2.20, held by Delmar, and beat all previous records, getting it without a skip in 2.15. This is the first time that Allerton was ever hitched to a wagon, and the performance was almost phenomenal.

## Sent to Folsom.

Special to the Journal.  
Fairfield, Cal., September 25.—Two colored men, Sparrow and Reynolds, who robbed the passengers on the train near Davisville on the 19th, were sentenced to-day in the Superior Court to six years apiece at Folsom.

## Editor Dead.

Special to the Journal.  
San Diego, September 25.—Andrew Pollok, formerly one of the proprietors of the San Diego Daily Union, was buried this afternoon. He was ill many months with consumption.

For Over Fifty Years  
Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while teething. It is distributed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth, send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for children teething. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures Diarrhoea, regulates the Stomach, and Bowels, cures Wind Colic, soothes the Gums, reduces inflammation, and gives Tone and Energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price twenty-five cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup."

## Notice to the Public.

Having fitted my barber shop and bath house with extra fine porcelain bath tubs, my bathing facilities surpass anything of the kind in this State, without any exception. Nothing but first-class work at C. Coleman's, west side of Virginia street, next to Fredrick's jewelry store.

## BY TELEGRAPH!

## News of Importance From Home and Abroad.

## Land Office Report.

Special to the Journal.  
WASHINGTON, September 25.—The report of Commissioner Carter of the operations of the General Land Office was made public to-day. The total number of agricultural patents issued during 86-7 was 44,449, against a total of 331,607 during the years 1890 and 1891, an increase of 197,154 patents. The increase in the number of mineral patents issued is 997, and coal patents 863. The number of acres of public lands disposed of during 1891, shows the cash sales amounted to 2,143,090 acres. Of miscellaneous entries (not cash) 5,040,393 acres; homesteaded, 969,006 acres; entered under timber culture law railway amounted to 1,867,572 acres; State selections to 174,404 acres; Indian allotments to 117,435 and original swamp selections to 23,107 acres; total cash receipts during the year, \$5,429,220; filings during the year, 20,311. The final entries during the year were 51,992, representing an acreage of 7,350,905. The original entries the same time were 45,945, aggregating 6,409,832 acres. The decrease in entries for the year was 15,604, representing an acreage of 2,596,820. Patents to land grant railroads during the year were for 30,088,070 acres, an increase over the previous year of 2,724,317. Surveys were accepted during the year to the amount of 3,096,004 acres. The vacant public lands in the public land States and Territories are 579,664,693 acres. Commissioner Curtis makes a strong plea for the irrigation of arid lands. The approvals during the year under different grants to the States for educational purposes and under the Saline grant having the effect of a patent embraced in an area of 756,172 acres. Of this amount Nevada received approval for 443,864 acres; Oregon, 91,843, and Idaho 40,006. At the close of the fiscal year there were found to be 83,058 final entries pending in the office against 308,004 at the close of the previous fiscal year. Railroad selections amounting to 28,846,577 acres were pending on July 1, 1891, which is a decrease of 930,078, as compared with the last preceding fiscal year.

The following shows the vacant public lands in acres in the several public land States and Territories as follows:

Arizona, 55,061,005; California, 52,299,499; Idaho, 23,781,851; Montana, 54,372,769; Nevada, 63,689,524; Oregon, 39,230,151; Utah, 35,428,957; Washington, 20,401,891; Wyoming, 50,842,421. Carter protests that the unsatisfactory experience following the granting of swamp lands to the States cannot properly be urged against the plan proposed for the settlement of the arid land question, and then says: "While swamp land grant States may have been indifferent and unwise in dealing with a grant which was not a mere incidental matter, desert lands grant States could not afford to thus deal with a question of vital importance. Indifference would court adversity and recklessness would bring ruin. When a proposition of this gravity is submitted to any organized body of American citizens directly interested in its wise consideration and solution they will consider wisely and act well."

## Blaine a Gold Bug

Special to the Journal.  
AKRON, O., September 25.—Colonel A. L. Conger, a member of the Republican National Committee from Ohio, recently wrote to Mr. Blaine to see if he could take part in the Ohio canvass this Fall, and to-day he received the following reply:

STANWOOD, Bar Harbor, Me., Sept. 23.  
Your favor received. I cannot take part in the Ohio campaign this year for many reasons which I need not give, but I hope no effort will be spared to elect McKinley. His victory at this time is very important to the country and the party. He and Mr. Campbell represent an honest difference between two parties at this time. There is no dodging and no evasion, and the voter need not be deceived. The election of McKinley means a policy of protection and honest money. The election of Campbell means free trade and corruption of the currency. I believe Ohio will stand by McKinley. Very sincerely yours,  
JAMES G. BLAINE.

## Poachers.

Special to the Journal.  
SAN FRANCISCO, September 24.—Captain George Webster of the sealing schooner City of San Diego is in the city. He gives the first authentic account of the capture of the sealer J. Hamilton Lewis by the Russians for poaching in the western part of Behring Sea. The City of San Diego, Geneva and J. Hamilton Lewis were sailing together near Copper Island when they saw the Russian cutter Alert approaching, and all took to flight. Alert opened fire, but did no damage, and it seemed that all three vessels escaped. Then they plunged into a dense fog and saw nothing of each other for two hours. When again in sunlight it was ascertained that the Alert had captured the J. Hamilton Lewis. The latter had over 200 skins on board at the time. The Geneva and City of San Diego made good their escape.

## Oklahoma Boomers

Special to the Journal.  
CHANDLER, Oklahoma, September 25.—Governor Steele arrived here yesterday afternoon. He said the surveyors were hurrying their work as rapidly as possible, but he could not say when the townsite would be completed. The expected opening will take place to-morrow at noon. The water supply is still a source of considerable annoyance, but there seems to be plenty of water just below the surface and wells are now being dug. Considerable lumber is arriving and as soon as the people who intend to transact business get locations they will put up buildings.

## SYRUP OF FIGS

## ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, head-aches and fevers, and cures habitual constipation permanently. For sale in 50c and \$1 bottles by all druggists.  
CALIFORNIA FIG SYRUP CO.  
LOUISVILLE, KY. NEW YORK, N.Y.

J. G. Kerth manufactures all kinds of soda water also sarsaparilla and iron, orange cider and the very best of beer. Send in your orders. Families supplied on short notice.

Those who contemplate renovating their houses should not forget the immense stock of wall paper at the store of the Reno Mill and Lumber Co., on Second street, next door to the Postoffice.

The only no fly lunch counter, and for many other reasons the most convenient, cheapest and best place to go for your meals, lunches and also all kinds of drinks, cigars and lodgings. SEASON & BROOKS.

The Palace Hotel, which is well and favorably known to every old Nevadan, is being conducted as usual by that veteran landlord, Al White, who spares neither pains nor purse to provide for the comfort and convenience of guests.

Miss Addie Morton of the Carson schools, was a passenger from the Capital last evening and will remain over until Sunday afternoon with her friends.

## WHAT IS SCROFULA

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which develops ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or the many other manifestations usually ascribed to "humors"; which, fastening upon the lungs, causes consumption and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

## How CAN CURED

It Be  
By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for the disease. Some of these cures are really wonderful. If you suffer from scrofula, be sure to try Hood's Sarsaparilla. "My daughter Mary was afflicted with scrofula sore neck from the time she was 22 months old till she became six years of age. Lumps formed in her neck, and one of them after growing to the size of a pigeon's egg, became a running sore for over three years. We gave her Hood's Sarsaparilla, when the lump and all indications of scrofula entirely disappeared, and now she seems to be a healthy child." J. S. CARLISLE, Nauright, N. J.  
N. B. Be sure to get only Hood's Sarsaparilla Sold by all druggists. \$1; six for \$5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

BREVITIES.

Bar Silver 98 1/2.  
Hon. J. M. Sanford of Stillwater is in town.

W. H. A. Pike is attending the State Fair.  
Jerry Corecco came in from Franktown yesterday.

James Paul, of Battle Mountain, is in Reno.

John Doyle and F. M. Rowland are in from Long Valley.

R. C. Blossom, the Battle Mountain editor, is in Reno.

L. A. Blakeslee of Winnemucca arrived on No. 4 yesterday.

D. A. Bender and daughter came down from Carson yesterday.

Miss Werner, a former University student, is down from Empire.

Attorney Summerfield, of Carson, came in on the Fair train yesterday.

Mrs. Hattie Davis (nee Cross), of Oakland, is visiting relatives in Reno.

Sam Jones, the Virginia City mining superintendent, has gone to the City.

Sweet, genuine apple cider for sale by Mrs. William Riley. See 50-cent column.

Reese Richard of Bodie passed through on his way from the city yesterday morning.

Mrs. C. A. Swan of Hallock is the guest of Mrs. B. E. Hunter. Her son is attending the University.

F. J. Button left last night for Humboldt county, with 765 head of stock cattle for the Bliss ranch.

Miss Maggie Gordon of Carson and a great favorite in Reno, will spend the balance of the week in Reno.

Round trip tickets for the District Fair at Carson will be for sale at the railroad office to-morrow. See ad.

George W. Rutherford has been appointed Postmaster at Winnemucca to fill the vacancy created by the death of A. T. Gilson.

A huge turtle, alive and wriggling, was the center of attraction at the V. & T. train this morning. It was destined as a victim to the Virginia epicureans.

J. C. Fraser of Denver, Assistant Superintendent of the Pinkerton Detective Agency, arrived in Reno yesterday to attend the Horn trial, which comes off next week.

Miss Lottie Mapes is in from Honey Lake and will depart for Churchill county next week to open her school. Miss Mapes is one of the University graduates of the class of '89.

The out of El Rio Rey in last night's Gazette was either a caricature on that beautiful animal, or else the artist was shown one of the horses that runs the drag around the track as he might appear with a case of epizootic coupled with polio, spavin, elephantiasis and kindred diseases. Winters has a just cause for libel.

**Deafness Can't Be Cured**  
By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any of Deafness (caused by catarrh) that we cannot cure by taking Hall's Catarrh Cure. Send for circulars, free.

E. J. CHAMBER, Toledo, Ohio.

Sold by all druggists.

**Round Trip Tickets to Carson**

The annual fair of Agricultural District No. 1, comprising the counties of Storey, Ormsby and Douglas, commences at Carson City, Monday, September 28th, and ends Saturday, October 3d, 1891. Tickets to Carson and return will be on sale at the railroad ticket office at Reno during the week, commencing Sunday, September 27th, and valid if presented for passage after Sunday, October 4th, 1891, \$2; children twelve years \$1.

The residents of Storey, Ormsby and Douglas counties are taking unusual interest in this fair. Ormsby county has erected a large and commodious exhibition hall, and everything promises a most prosperous meeting.

**Church Notices.**

Next Sabbath at the M. E. Church, our theme will be "The Trying of the Antichristian Spirit," and in the evening, "The Employment of Angels." All are cordially invited.

Catholic Church—No services on Sunday the Rector being absent. A mission will be opened at this church on Sunday, October 11th, by the Lazarist Fathers of Chicago. It will continue for one week.

**The Fossil Woman.**

Several medical men and scientists have examined the fossil woman, now on exhibition on Virginia street, next to Tassell's shoe store, and unhesitatingly pronounce it a genuine petrification, and one of the greatest natural curiosities of the age. The month was probed and the teeth, with the enamel perfect, were exposed by experts here.

THE STATE FAIR.

An Immense Crowd in Attendance at the Grounds.

GOOD MUSIC AND EXCITING RACES.

The Grand Stand Resplendent With Beauty—Vagueros and Bucking Broncos—Frank M. Still in the Lead—A Goodly Number of Visitors Present.

Yesterday was the gala day of the Fair. Reno was a desert city by 2 P. M. A wildly enthusiastic crowd filled the grand stand. The prime events of the week were on the programme. The great 2:22 pacing race; the appearance of the world-bester, El Rio Rey, the pride of Nevada; the many pretty girls from Carson, Virginia and Reno; the high and mighty contortions of the acrobatic mustangs, caught the crowd in its merriest humor.

The train from Carson and Virginia came in well filled with an expectant crowd, who made straight for the grounds after a short tour of the town. Five thousand people filled the grand stand during the forenoon and there was a largely increased crowd in the afternoon.

The day was another perfect one. The roads were fine and free from dust, and the air clear. It was a great day and the best of the Fair in attendance and excellence of programme. Though the crowd was large and enthusiastic, it was very orderly. The band caught the fever and outdid itself in the musical line.

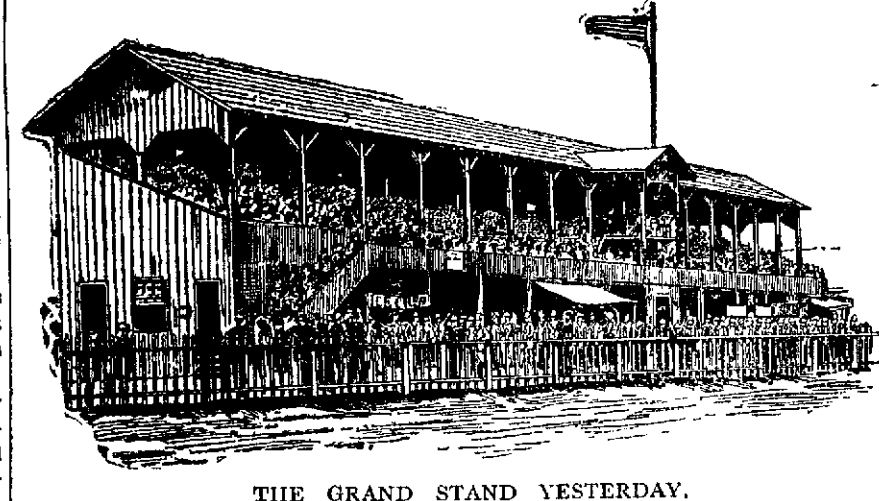

BUCKING BRONCOS.

The event of the forenoon was the vaquero riding. There were a number of high strung mustangs successfully ridden. They were equine acrobats, but their riders, spider-like, clung tenaciously to them. The first mustang strongly objected to being ridden and exercised all her physical powers to dismount her rider, but finally gave it up as a bad job.

Tom Carter mounted a spirited horse and rode fairly well. She suddenly elevated herself and when she resumed her ordinary position, Mr. Carter was not there, but was picking himself up from the ground which had given him a soft resting place. The crowd fairly howled with delight at this feature of the programme. It is something that takes with the boys and the fair sex seemed to enjoy it.

YESTERDAY'S RACES.

The first event was a running, 1/4 of a

THE GRAND STAND YESTERDAY.

mile dash, for 2-year-olds. Purse \$200. Only two entered. Zaldivar and Valeria. Zaldivar took the lead and kept it, coming in an easy winner. Time 1:30 1/2.  
The second event was a running race, 15-16 of a mile, purse \$200. The entries were Wild Oats, Kilgarriff and Canny Scott. The race was won by Canny Scott. Time 1:30 1/2. Wild Oats second.  
The third event was a running, 1/4 of a mile. Purse \$250. The entries were: Idaho Chief, Delmar and Dr. Ross. Pool selling was lively, with Delmar a big favorite. It was a pretty and exciting race and all came in close together on the three-quarter stretch. Delmar won with the others neck and neck, and only a quarter of a length behind the winner. Time 1:28. Idaho Chief second.

EL RIO REY.

General C. C. Powning announced from the Director's stand that through the courtesy of Hon. Theodore Winters, Nevada's greatest horseman, El Rio Rey, Nevada's pride, would be galloped around the track to the three-quarter post, and speeded down the home quarter.  
"El Rio Rey," said General Powning, "is the sixth son of Norfolk and Marion. He started in seven races against the best horses in the world and was never beaten. He has the best three-quarter record of 1:11 as a two-year-old, made at Westchester, N. Y. He is the winner of \$80,000 in purses for his owner, who refused to sell him before his illness for \$50,000 and Terra Cotta, a horse worth \$20,000, and since his illness for \$30,000."

The king of horses, for such he is, appeared on the track with his rider up in his winning colors. This was the signal for a wild burst of applause, in which the ladies joined. The noble and beautiful animal seemed to appreciate the compliment as he gracefully lowered his head, and his rider, a colored boy, felt that he was a bigger man than the President. The horse galloped to the three-quarter post and came down the homestretch at full speed in 24 seconds, making the last eighth in 11 seconds. Men cheered, ladies waved their handkerchiefs and the band played "Hail to the Chief" as the king of horses gracefully swept up the track and passed under the wire. A wreath of roses was placed on his neck by Miss Mamie Bell, an honor which the intelligent animal seemed to appreciate as he proudly pranced to the stable.

THE PACING RACE.

The much talked of pacing, 2:18 class, between Frank M. Gold Medal, Hammer

and Turk Franklin, was next on the programme.

The first heat was delayed by Hammer, who showed a decided disposition to take his own time in starting.

The start was good. It was a close race most of the way around, but Frank M. dropped quite a distance behind, leaving the race between Gold Medal, Hammer and Turk Franklin. They came in close together, with Gold Medal, slightly in the lead, winning in 2:23 1/2. The second heat was won by Frank M. amid the wild cheers of the Renoites. Time 2:20 1/2. The third heat was won by Frank M. Time 2:21. The fourth heat was won by Frank M. Time 2:20.

TO-DAY'S RACES.

Running, five-eighths of a mile, district horses, purse \$150. Entries, Charger, Daw Drop, Joe and the Jew.

Running, handicap for two-year-olds, four and a half furlongs, purse \$200. Entries, Kyrene, Zaldivar, Dr. Ross and Rayna.

Pacing, 2:30 class, purse \$300. Entries, Frenchy, Prince, Laura B. and Irene.

Trotting, two-mile dash, purse \$300. Entries, Josie C., Pasha, Our Jack and Robert L.

In addition to the above there will be a free for all quarter of a mile dash.

Stock parade at 10 o'clock, when the blue ribbons will be tied on to the winners of prizes.

SNAP SHOTS.

Last day.

Rest to-morrow.

A bad day for corns.

Largest crowd of the week.

Baby concert on the grand stand.

The crowd stood and stayed well yesterday.

Five carloads from Carson and Virginia yesterday.

The Pavilion is very handsomely decorated.

Henry Arnold of Purdy is an attendant at the Fair.

Supreme Judge Bigelow took in the races yesterday.

The aisles in the grand stand were simply impassable.

Gold Medal made 2:14 on the Sacramento track Fair week.

The 2:22 trot was a hard race for the outsider to guess.

The Journal reporter is rattled, and is "no longer in it."

The ice cream and soda water booths are well patronized.

Reno's business men turned out in full force yesterday.

Congressman Bartine was an attendant at the races yesterday.

The Pavilion is lovely and the evenings are pleasantly spent.

Mrs. Webster, and ladies of the Relief Corps share the credit of the decorations.

Mr. Joy, Superintendent of the Poor Farm, opened some of his current wine last night, and it was delicious.  
There must be a wedding or two on the tapis from the very careful and earnest manner two or three of our young couples were examining and prizing Bruner's and Sessions furniture last night.

POSSIBILITIES OF NEVADA.

Senator Stewart's Address Before the State Agricultural Society.

Hon. Wm. M. Stewart, in compliance with the request of the State Agricultural Society, delivered the annual address at the Pavilion last night to a large and appreciative audience. Hon. M. D. Foley, Superintendent of the Pavilion, with appropriate remarks, introduced the speaker, who was received with applause. Mr. Stewart said:

Mr. President, Ladies and Gentlemen—Nevada has been misrepresented; it is not an uninhabitable desert. Its mineral resources are unsurpassed; its capacity for the production of agricultural products has not been fully ascertained, but in quality and variety of fruits, vegetables and cereals Nevada is second to none.

Our mining industry was paralyzed by the crime of the nineteenth century, the demonization of silver. Our agricultural development has been retarded by a cessation of mining, caused by the falling price of silver. The discount on silver deprived the miner of employment and the farmer of a market.

Our agricultural development has also been retarded by the laborious effort of the Eastern press to prove that Nevada is an uninhabitable desert.

OBSTACLES TO REMOVE.

The people of Nevada have two obstacles to remove; first, to right the wrong of 1873 by the demonization of silver, and second, to show that the outside world is laboring under a misapprehension as to the agricultural capacities of our State.

Eighteen years ago the paper money, commercial credits and all other obligations for the payment of money rested on the solid foundation of seventy-five hundred millions of metallic money, gold and silver coin. The creditor classes, to enhance the value of bonds and fixed incomes, by strategy and fraud, secured legislation, first in the United States, and second in Europe, excluding silver from the mints of the United States and Europe, thereby degrading the white metal and depriving the world of one-half of the supply of money metal.

Since that time there has been no increase of the gold coinage of the world; the entire product of the mines has been absorbed for non-monetary purposes. The Director of the Mint tells us that there is only \$3,727,000,000 of gold coin in the world. On the gold theory there is no silver coin which is money of ultimate redemption.

The entire fabric of paper money, commercial credits and all other obligations now rests upon the narrow foundation of less than half the metallic money that existed eighteen years ago. The credit and business of the world is on a too narrow basis. The fact has been discovered that the gold reserves are inadequate. Every financial institution in the world is bleeding its customers to increase its resources and save itself from bankruptcy. Stagnation, hard times and falling prices, the inevitable result of contraction, have taken the place of progress, enterprise and development, which existed previous to the crime of 1873.

STAND TOGETHER.

I need not argue the silver question to the people of Nevada; they know that there is not gold enough for use as money, and that the demonization of silver means the ruin of our prosperity and universal distress and bankruptcy.

The only question with you is how to right the wrong and restore silver to the place it occupied before it was clandestinely demonized. I will tell you: Stand together as one man in favor of the free coinage of silver. It is paramount to all other questions and to all other issues. Until the silver question is settled and silver demonized, let there be no division in the ranks of the people of Nevada.

We cannot succeed in this contest if we divide on minor issues. Let there be but one issue until silver is restored and this generation is allowed to again enjoy the bounties of the new discoveries of the precious metals. Nevada, if united, is strong.

REFUTE MISREPRESENTATION.

The people of Nevada can refute the destruction and misrepresentation of the Eastern press as to its agricultural resources by showing to the world the facts as they exist. The Government appropriates \$15,000 annually to aid us in making that proof. Your experimental station has, at least, given you an object lesson and an exhibit, which is before you, creditable, encouraging and instructive.

The capacities for production of every section of the State should be made known. The farmers and people of the different counties must co-operate with the managers of the experiment station in this great work of ascertainment and publishing to the world the capacities of Nevada to produce cereals, fruits and vegetables in perfection and abundance.

We already know that by irrigation all of the agricultural products of the temperate zone can be produced. We do not know what particular vegetable, plant or fruit will be most profitable and best adapted to our climate, circumstances and soil. But those facts must be ascertained and published to the world.

We do not know to what extent agriculture can be pursued without irrigation in this State. It is believed by many that there are large sections of the State where cereals can be produced without irrigation. If such be the fact, it is most important that it should be known.

There can be no question that ultimately the resources of Nevada will be known, appreciated and developed. We already know that for quality and quantity per acre the agricultural capacity of Nevada is unsurpassed. We also know that there is no climate in the world more conducive to health, vigor and the development of mental and physical power, than the climate of Nevada.

The extent of the land which may be cultivated by irrigation is only limited by the amount of available water. There is more land than water in this and all of the other arid States and Territories. Nevada may not

have as much available water as some of the other States, but it has much more than many of the States and Territories which stand high as agricultural States and which are being rapidly populated.

If the waters of the Truckee and the lakes connected therewith could be utilized and distributed upon the land they command, Reno would be a city, and agricultural products would be produced sufficient to supply the people of every one of several of the Atlantic States.

If the waters of the Humboldt and its tributaries could be conserved and utilized, more agricultural products could be produced than in any State of New England.

The Carson and Walker rival the Truckee and the Humboldt in the possibilities of production, if their waters were utilized.

There are many other streams and sources of water supply in the State, all of which will be ultimately utilized to the utmost extent.

THE ARID REGION ATTRACTING ATTENTION.

Those who think that the time is far remote when the agricultural resources of Nevada will be in demand, are much mistaken. The population of the United States is rapidly increasing. It has extended from the Atlantic to the Pacific until it has exhausted all of the available homestead land outside of the arid region. The attention of the people of the old and new world seeking homes is already attracted to the arid region of the United States, Utah, Idaho, Colorado and Montana are advancing in wealth and population in unparalleled strides.

The area where wheat can be successfully and cheaply produced is being diminished; the new lands of the Mississippi Valley for wheat growing is about exhausted. Population is pressing to the arid regions; it will necessarily come to Nevada.

It is cheaper to transport wheat raised in the arid region than to cultivate it by fertilizing the soil in the older States. There is a growing demand for new wheat land; there is a growing demand for a place for settlers, and when it is known—as the people of this State will make it known—that Nevada can furnish a better place for homes where supplies of food and clothing are more abundant and where health is more secure than anywhere else, population must come.

What Nevada needs is to refute the charge that she is a desert; to prove to the world that she has almost unlimited natural resources, both mineral and agricultural. She must not only prove that her natural resources are great, but she must unite to a man to right the wrong of 1873 and rehabilitate silver, revive silver mining, furnish a market for the farmer and make our State self-supporting and self-sustaining, independent and prosperous.

THE SILVER QUESTION.

Since the adjournment of Congress I have spent several months in New York discussing the silver question. During that time, I have learned many facts with regard to the subject of money.

The New York bankers are investors and collectors on foreign account. They receive their instructions from the other side of the Atlantic; they are directed to collect in the dearest possible money. They care nothing for the prosperity of the United States. Their only desire is to satisfy their patrons and employers. These great banks control the country banks dependent upon them, and the business community, to whom they loan money. The press in most of the commercial centers is patronized by these banks and their dependents, and advocate the views of the Shylocks of avarice.

The gold party is composed of Democrats and Republicans alike; its central organization is in New York City; its purpose is to use the two great political parties and make them subservient to its selfish and sordid purposes. It has met with great success in its political manipulation. The Treasury Department has been absolutely under the control of the gold combination for nearly a quarter of a century. The kings of avarice are now alarmed at the prospect of the people against their extortion. They are making extraordinary efforts to conceal their sinister purpose by falsehood, sophistry and deception. They are manipulating political conventions, and by intrigue and a liberal use of money, inducing them to frame platforms and pass resolutions in favor of the gold standard and contraction. They have invaded the silver producer's region and their emissaries are everywhere at work to mislead and divide the friends of free coinage.

THE MOTO OF NEVADA.

It is gratifying to know that the people of Nevada cannot be deceived on this vital question, and that the motto of our State is "Free and unlimited coinage of silver, equally with gold."

We know we are right; our confidence in our cause cannot be shaken; great progress has been made. Every agricultural organization, Farmers' Alliance and labor organization in the United States has declared for the free coinage of silver. Trickery and money may retard the progress of the movement, but the people are aroused and ultimate success is inevitable.

The gold standard, contraction, hard times and poverty cannot be much longer endured.

Senator Stewart was frequently applauded during his speech, and enthusiastically cheered at its close.

Artistic Work.

One of the most beautiful pieces of work at the Pavilion is an altar cloth, hand-made by Miss Maggie O. Roberts of Sacramento. The emblems, Greek lettering and insignia, are ecclesiastical, and are artistically arranged. The body or ground of the piece is of white gros grain silk of very heavy texture. The designs are worked with fillosette silk, and embroidered in Japanese gold thread couched with silk, the figures, letters, etc., being in raised embroidery. The whole is bordered with a heavy silk fringe in bright colors. As a piece of fancy or needle work it shows not only taste and fine handiwork, but the intricate mingling of silk and gold threads, and the delicate blending of the colors must have taken days of patient and earnest work. The piece is said to be worth over five hundred dollars.

Miss Jennie McFarlin, one of the bright members of the Normal class of '90, who successfully taught the Sheephead school last year, departed for the scene of her school labors yesterday.

THE PALACE

Dry Goods and Carpet House.

GRAND OPENING

—OF—

FALL AND WINTER

DRY GOODS,

—ETC.—

We Take Pleasure in Announcing that

**How Tin Plates Are Made.**  
The following particulars of the Moreswood process of tinning plates, now in use in the United States, may be of interest. The plates are rolled in the ordinary manner into black sheets, eight of these sheets being rolled at one time, and after being sheared to size are put in the black pickle bath of sulphuric acid, where all oxidation is removed. They are then placed in an annealing furnace for thirty-six hours, after which they are passed through the cold rolls receiving a smoothly polished surface. They are annealed again and put into the white pickle, where they are thoroughly cleansed from any oxidation. They are then ready for the tinning process.  
The mode of putting on the coating of tin is very simple. The plates are first submerged in a bath of palm oil until the water disappears, the oil forming a film for the tin, the first coat of which is received in the tin pot; the plates are next dipped in the "wash pot," and when taken out the tin is spread over the surface with a brush by hand. The final act in the tinning process consists in passing the plates through rolls running in palm oil, whereby the tin is evenly distributed and a smooth surface obtained.  
There are five of these rolls used, three running on top of two, and the plates make two passes through them, in the first place being let down through the first and second of the upper set, and by a cradle arrangement being returned through the second and third. This completes the tinning operation proper, and the polish is obtained by rapid movements of the plates through bran and middlings, respectively, and then polishing with sheepskin. The result obtained is a very excellent article of bright tin plate.—Iron

**The Voucher Was Slow, but It Came.**  
A case of better late than never was brought to light recently. James W. Miller, Sr., who was postmaster at Hamilton, Boone county, Ky., under President Lincoln, has received a voucher for \$18 for salary due him. He was postmaster nearly thirty years ago.—Cincinnati Enquirer

Borers of the city artesian well at Port Worth, Tex., are of the opinion that the drill will soon penetrate a huge volume of boiling water, as the temperature increases with every few feet they go down, and at last accounts was 121 degrees at a depth of 2,900 feet.

By the will of Leshu Frederick Morgan, of London, four-tenths of his estate, valued at \$200,000, is to be divided into four equal shares and distributed among the poor or any deserving charities of Philadelphia, St. Louis, Chicago and San Francisco
